

# Save Money Today With Our Affordable Dental Coverage!

## In the First Year With Our Dental Coverage, You'll Save About \$1,500!

The caring staff of McGue Dental Care understands that insurance companies have recently made significant reductions in coverage. We also realize how difficult it can be to afford basic dental care during these tough times.

Thankfully, our dental coverage plan provides your entire family with the preventive dentistry they need at a huge discount. Included are two annual cleanings & exams with x-rays & fluoride treatment. You also receive up to a 15-20% discount off all other procedures, including cosmetic care that is usually denied coverage by insurance companies. Unlike traditional insurance, there are no limitations or restrictions.

Call us today to get started!
